AiDi Corporation opens second factory in Zhuhai and expands global offices

Emeryville, CA, June 15, 2008 – Driven by increasing demands of AiDi products, AiDi Corporation has launched its second Zhuhai factory in China. The new factory is three times the size of the first, which enables AiDi Corporation to increase production capacity and improve the overall flow of production processes. Products manufactured at AiDi Zhuhai factories include: MPO pigtailed and fanout assemblies, LC connectors and patch cords, PLC splitters, fiber arrays, attenuators, and passive filters for CWDM and DWDM in LGX box and thin cassette formats.

“With the addition of second Zhuhai factory, we will be able to meet the rapidly growing demand for our products and to better serve our customers around the world,” says Mr. Kenzo Ishida, President and CEO of AiDi Corporation.

AiDi Corporation is also expanding in other countries. AiDi USA, Inc. has recently relocated to a larger facility in Emeryville, CA, to accommodate an increase in headcount in the sales and marketing department. AiDi Corporation, Japan has also increased headcount recently and will be relocating soon to a larger facility in Tsukuba to better support the growing needs of customers.

Since its start in 2004, AiDi Corporation has achieved continuous progress, doubling its revenue every year. AiDi Corporation continues to execute its plan to expand globally in the United States, Japan and China.

About AiDi Corporation

AiDi Corporation is a global company that offers innovative, high-value, Passive Optical Network (PON) products and service. AiDi leads the way to expanding optical network markets and deployments through improved network efficiency and economics. AiDi has exceptional technical leadership in the industry, providing customers with advanced networking options at a lower total cost of ownership. PON components from AiDi are remarkably well suited for harsh environments, as well as highly populated urban centers. All AiDi products are carefully engineered and manufactured to exceed industry standards, resulting in a higher standard for durability and a longer lifetime in the field. The company is privately held, founded by industry pioneers with several U.S. and International Patents Pending. AiDi headquarters is in Japan, with independent operating subsidiaries in China and the United States. All Rights Reserved.
