

PRESS RELEASE

FOC ITL Qualification for AiDi Splitters

San Francisco, CA, August 24, 2007 – 1x16 and 1x32 PLC Splitters from AiDi Corporation completed the FOC ITL Qualification Process exceeding all requirements specified by Telcordia GR-1209/1221. These products are now available, already pre-qualified for telecom networks.

The testing report confirms that AiDi splitters have exceptional performance and reliability, significantly exceeding ITL standards on all measures. AiDi Corporation continues to demonstrate leadership in the development and manufacturing of high quality Passive Optical Network (PON) products and services.

“AiDi is committed to customer satisfaction. We determined that FOC ITL qualified splitters save time and money in cabinet-level testing, a unique benefit for our North American customers”, Kenzo Ishida, President and CEO of AiDi Corporation.

To achieve such a high level of performance and reliability, unlike other suppliers, AiDi has taken complete control of the supply chain from selection of raw materials through to delivery of the final product. The result of this model for customers is more confidence the product integrity along with rapid product development cycles.

About AiDi Corporation

AiDi Corporation is a global company that offers innovative, high-value, Passive Optical Network (PON) products and service. AiDi leads the way to expanding optical network markets and deployments through improved network efficiency and economics. AiDi has exceptional technical leadership in the industry, providing customers with advanced networking options at a lower total cost of ownership. PON components from AiDi are remarkably well suited for harsh environments, as well as highly populated urban centers. All AiDi products are carefully engineered and manufactured to exceed industry standards, resulting in a higher standard for durability and a longer lifetime in the field. The company is privately held, founded by industry pioneers with several U.S. and International Patents Pending. AiDi headquarters is in Japan, with independent operating subsidiaries in China and the United States. All Rights Reserved.
